“This is a superb tree of moderate growth, has dark extra-glossy leaves and white-seeded berries. When in flower it is rarely beautiful; the entire tree is covered with lacelike flowers, orange yellow and very fragrant. The seeds seem to play no part with the flowers, which are fastened to the wood, while the seeds are in drooping clusters.”

33838 to 33840. ACACIA spp.

“‘*Aromo.*’ Three different varieties, of merit as ornamental trees of great beauty.”
